## The Language of the Field: Brain, Mind, Body Integration

**Circles of Life**, also known as Geotran, is a digital, numeric, geometric language which speaks directly to the in-form-ation fields, or memory fields, that hold the record, past and present, of who you are and your potential. These fields are like computer memory. Like the SCIO Biofeedback program, the software of your field can be worked on using these geometric codes and kinesiology. It is powerful work that shifts the old tapes and programs, so you can “truly allow your gifts to shine.” These changes are more powerful than affirmations as they erase the old memory tapes and replace them with new positive growth intentions. After a Miracle integration, one bright 8 year old girl said, “I feel smarter.”

### There Are 4 Integrations in the Program

**MIRACLE** Occipital Lobe deals with the way you learn, see yourself in the world and the way you hear and comprehend. It deals with dyslexia, all midline movements and more.

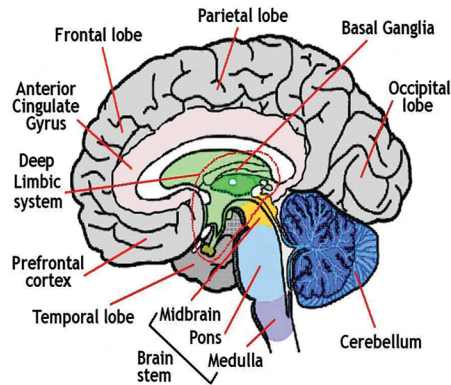

**FOUR-IN-ONE** Temporal Lobe addresses the way you communicate, especially with yourself. It restores self-trust and inner hearing.

**PEACE** Parietal Lobe restoration of lost ideals and violation of the universal laws.

**LIVING** Frontal Lobe restores your ability to receive and to be blessed. It deals with digestion of life and forgiveness.

Here is Pam before and after a Miracle Integration.

*After a traumatic brain injury, Louise was able to help nurture my brain back to health. In addition to my physical wellness, she was able to help realign my emotions and unblock the stresses that stood in the way of my physical healing.*

- Joseph Ranseth,  
public speaker & author

*“Who knew I had emotional traumas blocking my success? Louise did! Her B.R.A.I.N. Program catapulted me into a success I never knew was possible. Thank you Louise for opening up a whole new world of possibility and abundant prosperity!”*

- Stacey Canfield  
public speaker

*“This is opening up for me greater freedom, full self-expression and an ‘I can do anything’ attitude. My physical body feels lighter, my emotional self feels peacefully open-hearted, and my spirit-being is walking in the light.”*

- Dr. Elsbet Meuth  
co-founder of TantraNova Institute
