

#8. Miracle Integration for Life!

Experience a powerful integration that reboots your computer (hard drive) for success. This affects 7 generations back and 7 forward.

You will experience the upgrade of your life!! Really!

This is the most powerful energy work I have ever done! My teacher, Dorothy Wood Espiau, the creator of Mind Gems created these codes. Like the SCIO Biofeedback program, the *software of your field can be worked on using these geometric codes and kinesiology*. It is **powerful work that shifts the old tapes and programs, (whether a health issue, brain issue, money spiritual issue) so you can “truly allow your gifts to shine.”** These changes are more powerful than affirmations as they erase the old memory tapes and replace them with new positive growth intentions. I have seen shifts in myself and my family in just 6 days!!!! I have seen shifts in my clients that are amazing! After a Miracle integration, one bright 8 year old girl said, “I feel smarter.” She went from C’s to A’s in Math and that was the goal we integrated.

There are 4 integrations in the program each deal with a different lobe of the brain.

1. **Miracle- Occipital Lobe** addresses the way you learn see yourself in the world and the way you hear and comprehend. It deals with dyslexia, all midline movements and more.
2. **Four in One- Temporal Lobe addresses** the way you communicate, especially with yourself. It restores self-trust and inner hearing.
3. **Peace- Parietal Lobe** restoration of lost ideals and violation of the universal laws.
4. **Living- Frontal Lobe** restores your ability to receive and to be blessed. It deals with digestion of life and forgiveness.

When you change the brain in the energy field it creates a more complete transformation! Changing the mindset is simply not enough. The deeper brain-soul connections must be transmuted- the traumas of the past, the subconscious memories of early programming and ancestral ties that hold you back from being your soul’s truth. When we release these patterns using brain- soul balancing (I found that we peel in layers) now you can re- program using the codes for Success After I saw the success all these amazing people had I began teaching the work and more people could benefit. Awesome! I combined all the steps I found to be the most powerful into system, the B.R.A.I.N. System TM

You can learn this, too!

B.R.A.I.N System has been the easiest and most effective modality that I have ever

used, and I had done a whole lot of work on myself over the last 35 years. In the 35 years of trying different modalities, reading different books, working on healing the trauma of just being alive and to lose all the stored knowledge after the Traumatic Brain Injury (TBI) was devastating to me. However, after investing in myself by joining Brain~Soul Mastermind and learning and using the B.R.A.I.N. System my life, my brain and my business has been transformed. I made 6 figures this year!

Bonnie's business booms!

I had some health issues while trying to build a Soul Healing business during Covid. Meeting Louise in October, 2021 at the Bootcamp was divine synchronicity; joining the Mastermind was the best decision I made to heal and quantum leap. In just 4 months, my life changed. I was able to retire from 30 years of ministry as a Director of Spiritual Care to begin the call of focusing on healing retreats, energy work, and spiritual counseling. I received 8 new

clients, my health improved, and I facilitated a healing weekend at a retreat center with 10 beautiful souls that I had not been able to do for many years. I had the courage to market myself, to be visible and trust that I was being divinely guided, and all would be well. I describe myself as a "soul illuminator" but through Dr. Louise's teachings and practices, my soul has embodied more of the light and shines brighter. May you be blessed and shine bright. ~Bonnie McCulley, Spiritual Coach and Healer

Lisa shares her powerful transformation

I was feeling heavy and disconnected and I thank Dr. Louise for reaching out and connecting, knowing something was amiss. Her words and intuition were right on and she found things in

me I did not know were there. I feel so much lighter and more present after Dr. Louise did her magic clearing. During both sessions, I felt a peace and calm replace the reactivity and panic. My breathing returned to normal, it was amazing!

In the events I recently had, Dr. Louise cleared my energy field and used her biofeedback frequencies. I felt fully supported, empowering and enrolling more attendees in my year-long programs. These were our best events ever and I am so

grateful to Dr. Louise. "Louise's **brain-soul work** is so needed in these times." In deep gratitude. ~Love, Lisa Sasevich, *The Queen of Sales Conversion*

Dr. Jean is her authentic self!

My main attraction to the work of Dr. Louise and the B.R.A.I.N. System™ is the spirit of collaboration among those participating in the Brain-Soul Success Mastermind. Having achieved success on many levels, I longed to be with individuals who delighted in the success of others and wondered where I could truly find a collaborative culture where I could thrive creatively. Although immersed in other transformational programs, I wanted to understand what stood in the way to being my authentic self. Why am I choosing to remain with those I know who do not support nor appreciate the 'real' me? Dr. Louise has helped me realize my true soul's purpose, to become 'unstuck' and to begin to distance myself from those

persons, places, or things that interfere with my life's journey in embracing *my true and authentic self*. The Mastermind group is loving, supportive, and interested in helping others develop high caliber skills. My love and gratitude to Dr. Louise and the Mastermind group for helping me become the more balanced, relaxed, and skilled person that I want to be! ~Dr. Jean Seville Suffield, *Master Teacher and Therapist*

Lezli goes from Traumatic Brain Injury to health and wealth

Suffering Covid fatigue from working on the frontlines as a nurse, I needed help desperately. My symptoms showed up as irritable bowel syndrome and acute vertigo. Depression and anxiety led me to disability.

Louise introduced me to her BRAIN System™ and healing frequency therapy. I didn't expect to see improvement so quickly. I came to her sessions wholeheartedly as I had a terrible car accident prior to going on disability. I was working 12-hour days well into the night some shifts. This accident robbed me of all my confidence and created a scar so deep that I doubted everything. I became pressured to reevaluate why I continued working in such a stressful, exhausting environment.

Louise invited me to her Mastermind group. We uncovered many blocks that had kept me from developing and implementing healthy changes. Biofeedback allowed Louise to guide me to the dis-ease in my spirit causing my illness. My faith and courage were restored. Louise guided me to early retirement free from vertigo, anxiety and depression towards having my coaching business and multiple streams of income.

The power and support of the Mastermind group and the knowledge from the BRAIN Academy™ allows me to create a new career while enriching my family relationships. Thank God for giving me continued strength to fully participate in Louise's training. ~ *Lezli Byrum, Surgical Nurse, Success Coach*

Dr. Pat transforming as a holistic physician

After having private coaching sessions with Dr. Louise, I knew that her work was incredibly transformational, using the power of brain, soul and energy in a way that I've not experienced. I joined her Mastermind, Inner Circle and Certified Coaching programs all at once. This is a huge step for me since I've been an allopathic physician for over 33 years and have rarely attempted to step outside of western medicine practices.

I am continually surprised with discovering ancestral wounds and wounds from my childhood that trigger me to react defensively and negatively. I was shocked to learn how the energy in the field can impact my reactions and beliefs, making me feel insecure and devalued. Using Dr. Louise' tools and processes have helped me to release the negativity in the energetic field inside and outside of me, so I can respond in a positive, caring way. I now have more peace, contentment and self-worth while becoming the holistic physician that my soul is meant to be. ~*Pat Tucker, MD*

Debbie's journey to up level her life, family and clients!

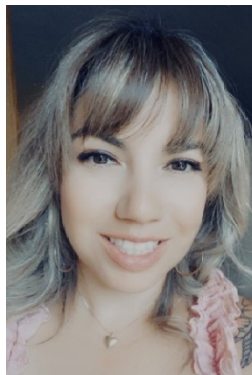

I have worked with Dr. Louise for over 10 years. I started taking classes from her, loved her energy and teachings and I really resonated with her work. I didn't fully understand it in the beginning, but I knew I felt better and lighter after working with her.

I attended the on-line Bootcamp in March 2021. Five months earlier my husband had passed away. I was grieving, felt alone and overwhelmed. I was facing some huge life decisions and I needed some clarity and direction. I also needed to surround myself with likeminded people to

support my journey. I made the decision to join the Brain-Soul Success Mastermind Program.

I feel more at peace, have more harmony, hope, focus, balance and a deeper spiritual path. Since joining the Mastermind group, I have been more focused. I have created a higher spiritual path, developed more ways to clear my energy daily, and up level my life.

Now, I am in the Certified Coach Program using these tools with my clients. I am blown away by the results. I invite you to join the Mastermind Program so you can experience positive energy, clearings, energy codes and Dr. Louise's program. I want you to up-level and live your best life. I am so grateful for the program, Dr. Louise and the support of all the Masterminds and I'm so blessed that I joined. ~*Debbie Inman, Biofeedback Practitioner*

Laurene's health and business transformed

I can trust my intuition and am able to help my friends and family with this work. I had been dealing with health issues, such as hormonal imbalances, anxiety and thyroid problems, for several years. I had been to several doctors and ended up in the emergency room a few times and I could not get any answers as to what was going on with me.

Being an empath and very sensitive to the energy around me, I was taking on a lot of other people's negative emotions and energy, which is extremely draining. By joining the Mastermind group, I have learned many tools that I am able to use to clear myself of energy (present and ancestral) that is not mine. I am more aware of what energy belongs to me and what does not. I am able to trust my intuition and help my friends and family with this work. I am looking forward to continuing this journey of learning all I can from Dr. Louise and her team. ~*Laurene Leyba, Angel Heal Yoga™ Teacher*
